

SPECIAL PROVISIONS

SECTION 730 – GENERAL REQUIREMENTS FOR TRAFFIC SIGNALS AND HIGHWAY LIGHTING SYSTEMS: of the Standard Specifications is modified to add:

730-7 Department Furnished Materials:

The materials included in the change order and that will be “Department Furnished”, will be furnished to the Contractor by the Department’s Traffic Operation Warehouse for installation in accordance with the plans and specifications. The Department Furnished materials shall not be used on any other project or location other than that shown on the project plans.

The Contractor shall coordinate the receipt of the materials through the Engineer and or electrical inspector only. The Traffic Operations Warehouse is located at 2104 South 22nd Avenue, Phoenix, Arizona 85009-6987. The Traffic Operations Supply Center Manager is Glenn Mara. Mr. Mara must be contacted for all arrangements, at (602) 712-6675 or gmara@azdot.gov

The Contractor shall pick up all Department Furnished materials in one day. The materials shall be picked up between the hours of 6:30 AM and 12:30PM, Monday through Thursday. The Contractor shall provide all labor and equipment necessary to load, handle and transport the materials. All Contractor personnel shall wear appropriate personal protective safety equipment, shall be licensed and qualified to run the hoisting/transport equipment used to load or move the materials. Traffic Operations Warehouse will stage the material for the contractor; however, ADOT personnel will not load traffic signal or roadway lighting poles that are Department Furnished materials on the contractor’s transports. The Contractor must provide appropriate vehicles and trailers to safely transport the materials. The Department Furnished materials will not be issued without an ADOT project representative and a contractor supervisor present at the warehouse to verify and sign for receipt of the materials.

The Contractor must store all Department Furnished materials at the site or near the project location as approved by the Engineer. The Contractor shall replace any missing or damaged materials at no cost to the Department if damage or loss occurs from the time the materials are picked up at the Traffic Operations Warehouse and the final installation on the project.

Fastenings, bolts and miscellaneous hardware such as sign brackets and under deck brackets shall be the responsibility of the contractor and are not included as part of the department furnished materials. The foundation anchor bolts, nuts and washers will not be department-furnished, and shall be part of the foundation item in accordance with Section 731-5 of the 2000 Standard Specifications for Road and Bridge Construction.

The department-furnished items shall be paid for when installed under the respective bid item. No direct or separate payment shall be made for coordination, loading, transporting, unloading or stockpiling materials. The cost shall be considered as included in the contract price of the respective items.
